

**Description**

The SUT supports the ability to perform immunization data entry by scanning 2D barcodes found on vaccine vials and syringes: vaccine type and manufacturer (found within the NDC which is encoded in the GTIN), expiration date, and lot number.

**Pre-condition**

Daniela Jennifer Wyatt is the practitioner.

**Post-Condition**

Go to step 3.6.1

**Test Objectives**

See test case for details

**Evaluation Criteria**

See test case for details

**Notes**

This may be performed concurrently as the function "Record vaccine administration".
