

**Description**

This provides the details for people (patients and providers) that should exist in the system under test before testing scenarios are performed.

**Post-Condition**

Data listed in the test cases listed below exist in the system under test.

**Notes**

This activity is not performed under proctor observation.

The Protection Indicator is the consent to share information with the registry. When marking if the patient has consented or not consented the applicable field, PD1-12 shall be marked with "Y" =Yes, protect my information (No consent) or "N" =No, do not protect my information (Consent).

This was an attestation item-previously attested to.
