Description

The SUT supports the ability to perform immunization data entry by scanning 2D barcodes found on vaccine vials and syringes: vaccine type and manufacturer (found within the NDC which is encoded in the GTIN), expiration date, and lot number.

Pre-condition

Daniela Jennifer Wyatt is the practitioner.

Post-Condition

Go to step 3.6.1

Test Objectives

See test case for details

Evaluation Criteria

See test case for details

Notes

This may be performed concurrently as the function "Record vaccine administration".
